

FARCROSS

FAcilitating **R**egional
CROSS-border Electricity
Transmission through
Innovation

FARCROSS aims to connect major stakeholders of the energy value chain around Europe and demonstrate integrated hardware and software solutions that will facilitate the “unlocking” of the resources for the cross-border electricity flows and regional cooperation..

FARCROSS Methodology

FARCROSS Impacts

-  Competition in the European Energy Markets
-  Supporting the Clean Energy Package ambitions
-  Enhancing regional cooperation in transmission grid
-  Creating Impact beyond the project lifecycle
-  Improving system security in the renewable energy context
